

I have known Trevor Ellis and his firm, Ellis International Services, Inc., for approximately 30 years and have had the pleasure of working with him regarding many projects involving mine property appraisal and valuation. Trevor has consistently performed such services with excellent professional skill and ability. He has always exemplified the highest ethical standards while completing even the most challenging projects within demanding deadlines and at a fair and reasonable cost to his clients. I have and will continue to recommend Trevor to any of my clients who need mine appraisal and valuation services.
